EDUCATION

Course	Year	Institute	Result
Bachelor of Engineering in Computer Science	2018-2022	Greater Noida Institute Of Technology	68%
12th Grade	2017	Janki Devi Sarvodaya Kanya Vidyalaya	66%
10th Grade	2015	Janki Devi Sarvodaya Kanya Vidyalaya	77.8%

INTERNSHIP

Deep-tech Computing - Product Development Intern(Jul 2021 – Present)

- Performing Competitor Analysis and identified the areas to be explored which helped them expand internationally.
- Developing the website using Django.

PROJECTS

- E-commerce

I have used Mern Stack to build this is E-commercen and heruko platform to host this website and cloudinary to store images on cloud.

- BookStore

This is the User Interface GUI with the help of a Tkinter.This is a normal book Store Application where we can add any book data and we can delete any book record or even update the book records.

- Dictionary

Here I've Used python and the data I got from google. Here the data is stored on data.Json file.As the name says it is a dictionary you can search for any word and you will get the meaning of that word in english.

- Qrcode Scanner

Here I've Used PHP. It is a QRcode scanner and also QRcode creator. We can scan the code and match it in the database to see the product availability and the go for Buy now option and here I have integrated the razorpay method for payment.

- Food Recipe

Here I used Reactjs and [themealdb](#) api for my data. This is food related application if anybody wants to cook and they have the common ingredients and they do not know the recipe or more ingredients let say i have cheese but i don't know how to make things with the help of cheese so i just need to search for cheese and it will show the foods that cooked with the help of cheese. Similarly you can search for any thing. And I've hosted this web on Heroku platform.

TECHNICAL SKILLS

Algorithm and Data Structure, Web-development, Mern Stack, Django, Git, REST APIs, PHP, JavaScript, CSS, HTML, Bootstrap, SQL Database, React Js

Programming language – C++

Also familiar with – Python, Java
